EDUCATION

- **MCA** from Swami Ramanand Teerth Marathwada University, Nanded in 2014
- **BCA** from Swami Ramanand Teerth Marathwada University, Nanded in 2011

CORE COMPETENCIES

- Informatica Development
- Data Warehousing
- AWS EC2
- Cloud Computing
- ETL Processes
- Quality Assurance
- Business Intelligence
- Requirement Gathering
- Performance Tuning
- System Architecture
- System Troubleshooting
- CI/CD

Certifications

MANOJ MANE

INFORMATICA DEVELOPER

PROFILE SUMMARY

- Decisive and result-driven professional with **10+ years of experience** in Data Engineering, ETL Development, and Production Support.
- Expertise in **Informatica PowerCenter (9.6 & 10.4), Informatica Cloud Data Integration, PySpark, Python, and Apache Airflow.**
- Skilled in **designing scalable ETL workflows, optimizing SQL queries, and ensuring SLA compliance** across financial and insurance domains.
- Strong background in **data warehousing, cloud computing (AWS EC2), and Unix Shell scripting**, with proven ability to deliver data-driven solutions.
- Experienced in **Slowly Changing Dimensions (SCD) Type 1 & 2**, workflow orchestration, and production troubleshooting.
- **Proficient in executing Informatica code deployments, managing migration tasks**, and orchestrating concurrent workflows to ensure smooth data processing operations.
- Mined & analyzed data from multiple sources to drive optimization & improvement and delivered data-driven solutions to business challenges.
- Successfully developed data warehousing systems using Informatica software tools; **integrated the same with the company's existing systems, troubleshot any issues**, and implemented the Informatica data management product.

WORK EXPERIENCE

Technical Lead – HCL Technologies, Nagpur & Pune (Jun 2021 – Present)
Clients: Transamerica, MasterCard, Credit Suisse

- 1) **Project Description:** Transamerica has several statutory company websites that Customers use to access their product information. **As part of Critical Change Initiative (CCI), we are providing a single portal for our customers to view all their products with Transamerica. This single portal is a summary page with product information.** This requires us to identify our customers (from various websites), provide them their product information, and federate them across.

 - Designed and maintained **scalable ETL workflows** for multiple insurance and banking systems.
 - Managed **workflow orchestration via Apache Airflow DAGs**, ensuring SLA compliance.
 - Led **code migration and deployment** across Dev, Test, UAT, and Production environments.
 - Collaborated with cross-functional teams to improve performance and reduce defect-fixing costs.
- 2) **Project Description:** EPN utilize the Enterprise Privacy Notice database to use customer information for marketing and affiliate sharing and provide sufficient information to report on notice delivery and customer opt-out compliance.

 - **Key Result Areas:**

TECHNICAL SKILLS

- **ETL Tool:** Informatica Cloud Data Integration, Informatica Power Center 10.4 / 9.6
- **Programming:** Python, PySpark, Unix Shell Scripting
- **Cloud computing:** Amazon EC2
- **Orchestration Tool:** Apache Airflow, Apache NiFi-1.18.0, Apache JMeter.
- **Databases:** Oracle 11g, PostgreSQL, DBEaver 24.0.4, IBM DB2, Toad/ SQL developer, Hadoop, Hive, Impala, Hue, PL/SQL
- **DevOps:** CI-CD Development Tool Jenkins, Bit bucket, Git
- **File Transfer:** HDFS, NGFT
- **Standalone Software:** Jira, Control-M, Service Now, PyCharm, MobaXterm, AQT, Postman, Cyber-Ark, Splunk.

Work EXPERIENCE:

Jun- 2021 to Present:
Technical Lead at HCL Technologies,
Pune / Nagpur

Jun- 2019 to Jul- 2021:
Senior Engineer at Clover InfoTech
Pvt. Ltd, New Mumbai

Jul-2016 to Jul-2018:
Senior Process Executive at Infosys,
Pune

Mar-2015 to Jul-2016: Associate at
Tech Mahindra Ltd., Pune

PERSONAL DETAILS

Languages Known: English, Hindi,
Marathi

Address: Pune, Maharashtra

- Delivered SLA-compliant resolution of Incidents/RITM tickets and proactive log monitoring for error detection.
- Collaborated with EBS/EPN production support teams to maintain live services, ensuring performance and availability aligned with defined Service Level Agreements (SLAs).
- Monitored log files for exceptions and errors, managed change requests, and resolved tickets within SLA timelines.

3) Project Description: UCP (Unclaimed Property) is an enterprise data processing application that manages unclaimed policy and claim records by processing monthly Social Security Administration (SSA) files and matching them against multiple insurance administration systems. Led support and enhancement of the UCP application, leveraging **PySpark, Python, and Apache Airflow** alongside **KIRO** to process large-scale insurance data, automate workflows, and support regulatory compliance and unclaimed property reporting.

- Leading production support and maintenance activities for the UCP application.
- Developing and supporting ETL pipelines using **PySpark and Python** for large-scale data processing.
- Managing and monitoring workflow orchestration through **Apache Airflow DAGs**.
- Developing and optimizing SQL queries for data validation, reporting, and reconciliation.
- Supporting monthly, state-specific, and ad-hoc processing runs to meet compliance requirements.
- Collaborating with business, compliance, operations, and infrastructure teams for issue resolution and process improvements.
- Monitoring SLA compliance and ensuring timely delivery of business-critical processes.

Client & Role: MasterCard – ETL Developer

Project: DPES – Data Platforms & Engineering Services

- Contributed to building a **data platform** that democratized access to enriched, high-quality transactional data.
- Executed **unit and functional testing**, ensuring robust data pipelines and reducing defect costs.
- Troubleshoot issues in the **UME Merchant Admin Portal** and validated API functionality using Postman.
- Enhanced **software quality** by supervising unit testing and identifying edge cases early.

Senior Engineer – Clover InfoTech Ltd, New Mumbai (Jun 2019 – Jul 2021)

Project & Client: (Risk Data Mart & UNICA) / Axis Bank Ltd.

- Developed and optimized **Informatica mappings and workflows** for ODS and Risk Data Mart projects.
- Implemented **performance tuning techniques** to improve workflow execution times.
- Supported production environments, resolving incidents and ensuring continuous availability.

Senior Process Executive – Infosys, Pune (Jul 2016 – Jul 2018)

Project & Client: Order Management (Q&R) / CISCO System Inc.

- Supported CRM/Salesforce application processes and data warehouse enhancements for Cisco client.

Associate – Tech Mahindra, Pune (Mar 2015 – Jul 2016)

Client: Airtel Bharati Ltd.

- Supported CRM/ Salesforce application processes and production support activities.
